GAGE STOPS SHORT WHILE STILL LEADING.
Three Ballots Taken and His Strength is Said to Be at Its Climax—Break Expected Today.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, Aug. 26.—[Exclusive Dispatch.] The balloting in the Sacramento convention today leads experts here to declare that Gage can not get the nomination, despite the fact that the "machine" had the power to insist upon the insertion of a plank in the platform commending his administration. This was a mere sop thrown to Gage and his ardent followers, and means nothing. If one analyzes the vote cast on the three ballots, he will see that though Gage gained 10 1/2 votes, there were several changes in his support, showing that certain delegations are unstable. He needs 83 1/2 votes to give him a majority, and the opinion of the best observers here is that he cannot gain these. Pardee's Alameda delegation is probably as perfect a collection of programmers as could be gathered together, but Pardee cannot swing them, and through the Pardee delegation Gage has his only hope of getting the nomination. Flint gained more than any other candidate today, but Flint, in the opinion of good judges, has reached the climax of his strength. Edison never had any chance, and Hayes is regarded merely as an unsuspecting dummy, put up to conceal the tactics of the Southern Pacific.

Those who have studied the situation carefully are confident that the railroad company does not want Gage, because the company knows that if he were nominated he could not be elected. Herrin had Frank Short of Fresno in grooming as a "dark horse" for several months, and Herrin's tactics are to get the convention into a deadlock and then spring Short on the members as a "dark horse." Hayes is not well enough known to serve as such, but Short is very well known and very popular. It may be that this plan will be upset by some unforeseen action by delegates that have been counted on to "stay put" till they get the word, but the programme is to show Gage, Flint and Pardee that they cannot succeed, and then to bring in an outsider upon whom a majority can agree. Gage's strength may not be thrown to Pardee, because many of Gage's strongest backers hate Pardee, and the railroad does not want him. Whatever may be said, the railroad managers are bosses of the convention, and it now seems that whatever they settle on will go through.

SACRAMENTO, Aug. 26.—[Exclusive Dispatch.] The Republican State Convention has taken three ballots for Governor, and Gage is believed to have reached the flood tide of his strength. Now all the State knows what he and his henchmen have been trying to keep them from knowing for so long, namely, that he is far too weak in his party to secure the 416 votes necessary for his nomination. For days and weeks Gage and his gang have been shouting that upon the first ballot he would receive about three hundred and ninety votes, and that the fight for Governorship would never pass the third ballot, for by that time Gage would have received more than sufficient votes to nominate him. It has been proven now that in making these claims he has been playing a game of bluff; that he has been trying to obtain votes from uninstructed delegates by false promises; that he can never make good the promises which he has been making; and that he has been made for him in the effort to induce, cajole or force some of the weaker or more ambitious delegates to vote for him. As in the fight for the chairmanship, he has thrown his entire strength into the three ballots, and in the votes, as in the opinions of the people of the State, he has been weighed in the balance and found wanting. A more desperate game than that which is running in and out of the Gage headquarters tonight has never been seen in this city, where the sight of such a struggle is not uncommon. Only yesterday morning, Dan Burns, who is personally and openly managing the Gage campaign, issued this statement over his own signature: "Gage will receive 390 votes on the first ballot," and tonight Burns is trying to tell some of his adherents, who have become more than a trifle shaky, what it was that

and the moment that even the most hardened "pushers" realize that Gage has lost, that moment will be the end of the fight. There is a break, there will be a landslide, and such breaks are expected tomorrow by the opposition. It has been understood for several days that when certain delegations were induced to enter the Gage camp, in return for definite promises of one kind or another, the agreement was that they were to remain only until after the third ballot. If that be true, the first ballot tomorrow will show some surprising changes, and these changes are not expected to be to Gage's advantage. OPPOSITION TO GAGE. The opposition is not tied up by many such promises or pledges. The Flint forces stand like a phalanx, and there is not the slightest indication of the loss of a vote. On the other hand, the Flint managers assert that they gain votes steadily tomorrow, and that Flint never stood a better chance of winning than at present. Dr. Pardee has given his word that under no circumstances will he consent to letting Gage have his support. Four years ago Pardee withdrew in Gage's favor, the understanding being that Gage would not seek reelection. It will be remembered that in his stereotyped speech which he made wherever he went in the last campaign, Gage said he wanted only one term, and now this is being used by his opponents. The Hayes men positively state that under no circumstances will they vote for Gage. Edison, who is now believed to be out of the running, feels more kindly to Flint than to any of the other candidates, and the Flint men have reason to expect that tomorrow Edison will throw to them his entire strength. GAINS AND LOSSES. Following is the result of the three ballots, a comparison of the gains and losses will show who is making the greatest gains:

	Flint.	Pardee.	Gage.	Hayes.
First	324	119	32	51
Second	374	129	32	51
Third	394	139	32	51

Flint gained a clear-cut victory. In the three roll calls, Flint gained 50 to Gage's 16, while Pardee practically held his own. Gage, after exerting all his strength he possessed, and now this is being used by his opponents. The Hayes men positively state that under no circumstances will they vote for Gage. Edison, who is now believed to be out of the running, feels more kindly to Flint than to any of the other candidates, and the Flint men have reason to expect that tomorrow Edison will throw to them his entire strength. GAINS AND LOSSES. Following is the result of the three ballots, a comparison of the gains and losses will show who is making the greatest gains:

GAGE'S GANG. Gage himself is not available, except to a limited few of his most trusted henchmen, men of the stripe of Walter P. K. Parker, Dan Burns, Martin Kelly, J. W. McKinley and half a dozen others. Well knowing that if there is once a break in the Gage vote, and particularly if such a break comes tomorrow during the first few ballots, all hope will be lost, this crowd is doing all that can be done by fair means or foul to bolster up the lost cause of a Governor who has been useful to them because of the easy berths he has given to members of the "push." Despite the fact that all their claims made heretofore were swept away by today's ballots, they are still making the wildest of claims, and are now saying that Gage is certain to win on the first ballot tomorrow, but they are in the position of the boy who cried "wolf" and for whom the wolf is upon them in the form of an opposition which they know they cannot break. There have been rumors of "back" men, but there are always such rumors in such bitter contests, and the only thing which now gives color to that rumor is the well-known fact that some of the Gage gang would not hesitate to use the "back" if by so doing they could help their idol, or rather their useful benefactor. There are also rumors of trades which, if what the Gage crowd claims were true, would be enormous for the anti-Gage forces, but it is too well known now that his gang has been bluffing all along, and it is generally believed that in the ballots today, especially on the third ballot, Gage mustered every vote which he could possibly secure. What he has most to fear is that some of his supporters will begin leaving. The class of men who are supporting Gage are "shaky creatures,

QUIETING OF MILES.
Trip Abroad Will Effect It. Has Made His Peace With President.

Orders to the Army Will Carry His Name. Magnificent Showing of Treasury—Deficit Has Largely Decreased.

WASHINGTON, Aug. 26.—[Exclusive Dispatch.] Army people today almost unanimously expressed their belief that Gen. Miles' coming trip to the Philippines will end the bickering between him and Secretary of War Root, as well as between Gen. Miles and the President. This was because it became known in Washington today for the first time that Gen. Miles was going off on his trip with full consent of the President and the War Department, and it was deduced that an understanding had been reached all around the will redound to the credit of Gen. Miles and to the benefit of the army of which he is the general commanding. In official circles at the War Department it was said that the President would never have given Gen. Miles permission to go on this tour of inspection; that orders would not have been issued to him without an understanding that he would refrain from indulging in administrative or political affairs during the trip. During the last months Gen. Miles had, with the President, in which he got the worst of it, his friends took an active part in trying to get him to abandon his disagreements with the War Department and the White House, and serve out the balance of his honorable career as a soldier in peace with his associates. That effort to induce Gen.

WASHINGTON, Aug. 26.—[Exclusive Dispatch.] The "Bankers" of South America, according to a report of Consul Mansfield at Valparaiso, to the State Department, are turning from agriculture and mining, which have proved profitable in the past, to industry.

WASHINGTON, Aug. 26.—[Exclusive Dispatch.] The "Bankers" of South America, according to a report of Consul Mansfield at Valparaiso, to the State Department, are turning from agriculture and mining, which have proved profitable in the past, to industry.

Miles to see things more charitably was made by several of his friends in the Senate, who have stood by him for many years, and people close to Gen. Miles say today they believe the General has been brought to see that he has been hurting himself more than anybody else by quarreling. Altogether, there is a decidedly optimistic feeling concerning the future relations between the White House and Gen. Miles. His departure from Washington, September 15, will prevent his taking part in the Grand Army encampment in Washington in October. Gen. Miles had intended to take an important part in that celebration. His relations with the military establishment during his absence from Washington will be in no way changed from those that have existed since his return from the field operations in Porto Rico in 1898.

All orders to the army will continue to emanate from the Adjutant-General's office, adjoining the office of the Secretary of War, and will continue to bear the formal line "By command of Lieut.-Gen. Miles," which has been made with a rubber stamp every week-day for the last four years, no matter in what part of the country Gen. Miles happened to be at the time. Beyond the Pacific, on his way there, and on his way back again, the Lieutenant-General commanding may exercise exactly the same authority as when he went to Europe to observe the Greece-Turkish War, a tour that carried him to the Queen's Jubilee, to Constantinople, to St. Petersburg, and to the German maneuvers to be the recipient everywhere of marked honors due to his high rank and record.

WASHINGTON, Aug. 26.—[Exclusive Dispatch.] At the close of business today the Treasury was \$1,635,000 ahead for this month, and there was a deficit since July 1 of only \$1,624,000. Considering that the war-revenue taxes have been wiped out, Secretary Shaw considers this to be a magnificent showing. The Treasury finds itself in such splendid shape that it is amply able to help out the bankers if they need money in the West for all crop movements, and probably Secretary Shaw will deposit about \$100,000 in national banks to supply currency needs. None of this money will be deposited in New York banks, however. All of it will go into western banks for the sole purpose of helping to move this year's enormous crops.

WASHINGTON, Aug. 26.—[Exclusive Dispatch.] The "Bankers" of South America, according to a report of Consul Mansfield at Valparaiso, to the State Department, are turning from agriculture and mining, which have proved profitable in the past, to industry.

POLITICAL.

(CONTINUED FROM FIRST PAGE)

ing that in no doing they were not supporting Gage as a candidate. This resolved what had become an unpleasant situation, and when the resolution was adopted unanimously, there was little cheering for under the circumstances it was practically a foregone conclusion.

PROCEEDINGS IN DETAIL.

TALKS, GOSPEL AND VOTES.

THE NEW ASSOCIATED PRESS-P.M.

SACRAMENTO, Aug. 26.—The Republican State Convention today opened permanently, adopted a platform and took three ballots for Governor without result. The day was an exciting one from beginning to finish. Factional strife began when the platform was read. No indecision of Gage was shown in it. The Governor's following could not allow what they considered to be a slap in the face to pass without protest. A resolution of indecision was introduced. A debate followed, in which most of the talking was done by Gage delegates. The discussion was a lively one, and threatened to develop into an acrimonious one. The anti-Gage delegates finally conceded the platform, but the resolution, but they wished it understood that they did so in the interest of harmony, and that it must not be taken as a victory for the friends of any particular candidate.

THE SPEECHMAKING.

SACRAMENTO, Aug. 26.—It was a quarter of an hour after the appointed time when Chairman Neff called the convention to order and called for the report of the Credentials Committee.

The report of the Credentials Committee named in the printed list of delegates was read. Judge McKelvey of Humboldt, Thomas H. S. Wright of the same county and F. W. Street of Tuolumne. The first ballot stood: Gillett, 234; Selva, 46; Street, 2; Selva, 2; Street, 2.

On the second ballot, Edison's support began to break away. Most of them went to Flint. Hayes also lost some ground. Gov. Gage and Flint increased their vote in the third effort, but Gage's increase of strength was not sufficient to satisfy those who are managing his campaign, and they sought an adjournment before proceeding further.

OTHERS WANTED BALLOTING.

The Flint-Edison-Hayes and Pardee people wanted to take more ballots. For a time great confusion existed in the hall. Delegates were clamoring for recognition by the chair, and making various motions to adjourn. A parliamentary skirmish ensued, out of which came a motion to adjourn until 10 o'clock p.m. A vote by roll call was called for. Before it was concluded a majority against the motion was apparent, and the call was discontinued. It was then moved to adjourn until 10 a.m. tomorrow. Another roll call was ordered, and it also was never finished, as all opposing forces concluded they wanted plenty of time to work on combinations and consented to adjournment.

ADDED VIOLENCE.

Added vigor was injected into the contest for Governor tonight, and the air around the different delegations was full of political electricity. Scouts were running out and in searching for bringing delegates to headquarters. Delegates with weak knees were being braced; all kinds of combinations were being considered, and in short every scheme of which the clever politician is capable was being resorted to in influence delegations and individuals.

IN THE EARLY MORNING.

The early hours of the morning found no cessation of the battle. Delegates to the "wise" ones who stood around the lobbies of the hotels and the reception rooms of headquarters, everywhere it was found that the delegates were in a state of high tension. There is also an indefinite talk floating around of "dark horses." All who are interested in the outcome of some particular candidate profess to find much encouragement in a situation fraught with so many possibilities.

The friends of Gov. Gage say they have a few more votes up his sleeve and has no idea of abandoning the fight, as some were claiming. They also say that Gage has shown his greatest strength, and that he must deliver his vote to the man from Alameda. It is understood on the outside that such an agreement exists, but the Flint followers contend that if it is true that Gov. Gage is willing to give up his own failure, to throw his vote to Pardee, he (Gage) cannot deliver the goods. A firmness in this belief augurs much hope in the breasts.

The Hayes people think that they stand in a track of the game, and that they are in a position to make a tactical lightning. It is generally considered that Edison is out of it. The Flint men are making a great effort to secure his votes tonight. Gage also expects to get some of them.

GAINS AND LOSSES.

The first ballot today resulted as follows: Gage 234; Flint, 234; Pardee, 234; Edison, 234; Hayes, 234.

The second ballot resulted: Gage, 235; Flint, 235; Edison, 235; Pardee, 235; Hayes, 235.

The votes of Gage, Flint and Pardee were increased at the expense of Edison and Hayes. In Del Norte (Gage gained one. The Second District took three from Edison and gave them to Gage. In the Third District, Humboldt, Edison received one from Gage. Shasta county gave Gage two more and Pardee gained two in Lassen, also one in Colusa. Yuba took five from Edison and gave them to Flint. Flint also got two of Edison's in Butte county.

In Nevada county Gage gained one, as well as did Pardee. Flint lost them, but got two in their place in Placer. Flint got one of Gage's in Alpine. He also took one of Edison's in Glenn county. Two of Edison's went to Flint from Colusa county. Pardee lost one to Flint in Inyo. Flint also got another form Edison in Sonoma in the Thirteenth District. In the Fourteenth District, Flint gained one that Gage lost in the Thirteenth. Pardee gathered up one in the Fortieth, which Flint dropped. Flint took a Hayes man in the Forty-second, and Pardee picked up one that defeated from Gage in Santa Cruz.

The third ballot resulted: Gage, 235; Flint, 237; Pardee, 234; Hayes, 237; Edison, 23.

Gage and Flint gained a few votes lost by Edison, Pardee and Hayes. The Second District, Humboldt county, gave four of Edison's votes to Gage. Shasta also gave Gage two of Edison's votes. Lassen county gave Pardee three instead of two, as on the first ballot. Nevada county took one from Edison. Flint, Ed Dorado gave Flint one of Pardee's. Alpine went back to Gage.

The Forty-second District gave Flint

one of Hayes's votes. In the Sixty-fourth District Flint picked up another one of Hayes's votes.

THE EIGHTH CONVENTION.

The Flint delegates had a caucus tonight, and passed a resolution agreeing to vote for Flint "first, last and all the time."

The Gage and Pardee managers were in conference at a late hour. The Flint managers claimed at midnight that they had some combinations working that would make a high break for the Gage ranks. They also expect to absorb all the Edison vote.

FIRST CONGRESS DISTRICT.

The result of the First District Congressional Convention may have an influence on the Governorship. The Gage people claim that Selva's failure to get the nomination will work to their advantage. The Flint people claim they will benefit by it. The district convention met tonight and chose J. N. Gillett of Humboldt county for Congress. The first ballot stood: Gillett, 234; Selva, 46; Street, 2; Selva, 2; Street, 2.

THE SPEECHMAKING.

SACRAMENTO, Aug. 26.—It was a quarter of an hour after the appointed time when Chairman Neff called the convention to order and called for the report of the Credentials Committee.

ADDED VIOLENCE.

Added vigor was injected into the contest for Governor tonight, and the air around the different delegations was full of political electricity. Scouts were running out and in searching for bringing delegates to headquarters. Delegates with weak knees were being braced; all kinds of combinations were being considered, and in short every scheme of which the clever politician is capable was being resorted to in influence delegations and individuals.

IN THE EARLY MORNING.

The early hours of the morning found no cessation of the battle. Delegates to the "wise" ones who stood around the lobbies of the hotels and the reception rooms of headquarters, everywhere it was found that the delegates were in a state of high tension. There is also an indefinite talk floating around of "dark horses." All who are interested in the outcome of some particular candidate profess to find much encouragement in a situation fraught with so many possibilities.

The friends of Gov. Gage say they have a few more votes up his sleeve and has no idea of abandoning the fight, as some were claiming. They also say that Gage has shown his greatest strength, and that he must deliver his vote to the man from Alameda. It is understood on the outside that such an agreement exists, but the Flint followers contend that if it is true that Gov. Gage is willing to give up his own failure, to throw his vote to Pardee, he (Gage) cannot deliver the goods. A firmness in this belief augurs much hope in the breasts.

The Hayes people think that they stand in a track of the game, and that they are in a position to make a tactical lightning. It is generally considered that Edison is out of it. The Flint men are making a great effort to secure his votes tonight. Gage also expects to get some of them.

GAINS AND LOSSES.

The first ballot today resulted as follows: Gage 234; Flint, 234; Pardee, 234; Edison, 234; Hayes, 234.

The second ballot resulted: Gage, 235; Flint, 235; Edison, 235; Pardee, 235; Hayes, 235.

The votes of Gage, Flint and Pardee were increased at the expense of Edison and Hayes. In Del Norte (Gage gained one. The Second District took three from Edison and gave them to Gage. In the Third District, Humboldt, Edison received one from Gage. Shasta county gave Gage two more and Pardee gained two in Lassen, also one in Colusa. Yuba took five from Edison and gave them to Flint. Flint also got two of Edison's in Butte county.

In Nevada county Gage gained one, as well as did Pardee. Flint lost them, but got two in their place in Placer. Flint got one of Gage's in Alpine. He also took one of Edison's in Glenn county. Two of Edison's went to Flint from Colusa county. Pardee lost one to Flint in Inyo. Flint also got another form Edison in Sonoma in the Thirteenth District. In the Fourteenth District, Flint gained one that Gage lost in the Thirteenth. Pardee gathered up one in the Fortieth, which Flint dropped. Flint took a Hayes man in the Forty-second, and Pardee picked up one that defeated from Gage in Santa Cruz.

The third ballot resulted: Gage, 235; Flint, 237; Pardee, 234; Hayes, 237; Edison, 23.

Gage and Flint gained a few votes lost by Edison, Pardee and Hayes. The Second District, Humboldt county, gave four of Edison's votes to Gage. Shasta also gave Gage two of Edison's votes. Lassen county gave Pardee three instead of two, as on the first ballot. Nevada county took one from Edison. Flint, Ed Dorado gave Flint one of Pardee's. Alpine went back to Gage.

The Forty-second District gave Flint

one of Hayes's votes. In the Sixty-fourth District Flint picked up another one of Hayes's votes.

THE EIGHTH CONVENTION.

The Flint delegates had a caucus tonight, and passed a resolution agreeing to vote for Flint "first, last and all the time."

The Gage and Pardee managers were in conference at a late hour. The Flint managers claimed at midnight that they had some combinations working that would make a high break for the Gage ranks. They also expect to absorb all the Edison vote.

FIRST CONGRESS DISTRICT.

The result of the First District Congressional Convention may have an influence on the Governorship. The Gage people claim that Selva's failure to get the nomination will work to their advantage. The Flint people claim they will benefit by it. The district convention met tonight and chose J. N. Gillett of Humboldt county for Congress. The first ballot stood: Gillett, 234; Selva, 46; Street, 2; Selva, 2; Street, 2.

THE SPEECHMAKING.

SACRAMENTO, Aug. 26.—It was a quarter of an hour after the appointed time when Chairman Neff called the convention to order and called for the report of the Credentials Committee.

The report of the Credentials Committee named in the printed list of delegates was read. Judge McKelvey of Humboldt, Thomas H. S. Wright of the same county and F. W. Street of Tuolumne. The first ballot stood: Gillett, 234; Selva, 46; Street, 2; Selva, 2; Street, 2.

On the second ballot, Edison's support began to break away. Most of them went to Flint. Hayes also lost some ground. Gov. Gage and Flint increased their vote in the third effort, but Gage's increase of strength was not sufficient to satisfy those who are managing his campaign, and they sought an adjournment before proceeding further.

OTHERS WANTED BALLOTING.

The Flint-Edison-Hayes and Pardee people wanted to take more ballots. For a time great confusion existed in the hall. Delegates were clamoring for recognition by the chair, and making various motions to adjourn. A parliamentary skirmish ensued, out of which came a motion to adjourn until 10 o'clock p.m. A vote by roll call was called for. Before it was concluded a majority against the motion was apparent, and the call was discontinued. It was then moved to adjourn until 10 a.m. tomorrow. Another roll call was ordered, and it also was never finished, as all opposing forces concluded they wanted plenty of time to work on combinations and consented to adjournment.

ADDED VIOLENCE.

Added vigor was injected into the contest for Governor tonight, and the air around the different delegations was full of political electricity. Scouts were running out and in searching for bringing delegates to headquarters. Delegates with weak knees were being braced; all kinds of combinations were being considered, and in short every scheme of which the clever politician is capable was being resorted to in influence delegations and individuals.

IN THE EARLY MORNING.

The early hours of the morning found no cessation of the battle. Delegates to the "wise" ones who stood around the lobbies of the hotels and the reception rooms of headquarters, everywhere it was found that the delegates were in a state of high tension. There is also an indefinite talk floating around of "dark horses." All who are interested in the outcome of some particular candidate profess to find much encouragement in a situation fraught with so many possibilities.

The friends of Gov. Gage say they have a few more votes up his sleeve and has no idea of abandoning the fight, as some were claiming. They also say that Gage has shown his greatest strength, and that he must deliver his vote to the man from Alameda. It is understood on the outside that such an agreement exists, but the Flint followers contend that if it is true that Gov. Gage is willing to give up his own failure, to throw his vote to Pardee, he (Gage) cannot deliver the goods. A firmness in this belief augurs much hope in the breasts.

The Hayes people think that they stand in a track of the game, and that they are in a position to make a tactical lightning. It is generally considered that Edison is out of it. The Flint men are making a great effort to secure his votes tonight. Gage also expects to get some of them.

GAINS AND LOSSES.

The first ballot today resulted as follows: Gage 234; Flint, 234; Pardee, 234; Edison, 234; Hayes, 234.

The second ballot resulted: Gage, 235; Flint, 235; Edison, 235; Pardee, 235; Hayes, 235.

The votes of Gage, Flint and Pardee were increased at the expense of Edison and Hayes. In Del Norte (Gage gained one. The Second District took three from Edison and gave them to Gage. In the Third District, Humboldt, Edison received one from Gage. Shasta county gave Gage two more and Pardee gained two in Lassen, also one in Colusa. Yuba took five from Edison and gave them to Flint. Flint also got two of Edison's in Butte county.

In Nevada county Gage gained one, as well as did Pardee. Flint lost them, but got two in their place in Placer. Flint got one of Gage's in Alpine. He also took one of Edison's in Glenn county. Two of Edison's went to Flint from Colusa county. Pardee lost one to Flint in Inyo. Flint also got another form Edison in Sonoma in the Thirteenth District. In the Fourteenth District, Flint gained one that Gage lost in the Thirteenth. Pardee gathered up one in the Fortieth, which Flint dropped. J. W. ROBINSON CO.
BOSTON DRY GOODS STORE
239 South Broadway, Opp. City Hall, Los Angeles.

Day after day the man in charge of the wash goods adds new lines to the special price list; day after day the inducements become greater. It seems as though no woman could afford to resist the allurements of such wash goods as we are now pricing at something like half their regular value.

As they count seasons in the east it is still Summer time—as seasons go here, there are weeks and months of wash-dress-goods weather ahead of us. Among the last of the wash goods to be re-priced note these four. Some at 1-2 price, some at 1-3 price.

25c for the 50c Printed Satine.
We offer in this collection a cloth of a decided silky appearance, printed in neat and attractive patterns for full dress costumes 32 inches wide; former price, 60c; reduced to 25c.

35c for Regular 75c Grenadine.
In this collection we present a fine open weave cloth, highly mercerized and enriched with lustrous figured stripes and lace effects; an ideal texture for dainty summer gowns; former price, 60c and 75c; reduced to 35c.

40c for Our \$1.25 Bordered Zephyrs.
A new novelty of lustrous appearance, possessing ample weight for graceful draping, with effective border stripes in unique colorings; 42 inches wide; former price, \$1.00 and \$1.25; reduced to 40c.

20c for Our 35c Cotton Pongee.
A fine mercerized production especially appropriate for summer attire, printed in rare pattern designs of novel conception, presenting a charming effect of quaint richness; former price, 35c; reduced to 20c.

EVENTS IN SOCIETY.

Edith Ruth Coates and Aloysius McCormick will be married this morning at St. Vibiana's church. The ceremony will be performed by Very Rev. Father Harbo, at 10 o'clock. Two hundred invitations have been issued for the church service, which a wedding breakfast will be served at the home of the bride's mother, Mrs. Robert D. Coates, No. 741 West Twenty-seventh street. Prof. Stamm will render Mendelssohn's "Wedding March" and other selections during the service. The bride will wear a tailor-made traveling suit of royal blue and a modish white walking hat. Her bridesmaids, Mrs. F. Matland and Miss Kathleen Tesham, will be attired in tailor-made suits of light gray seersucker cloth, and carry pale pink carnations. The groom's brother, Paul McCormick of Berkeley, will stand with him. The bride-to-be, who has lived in Los Angeles for nearly all her life, was one of the graduates of St. Mary's Academy, and has been for three years a teacher in the public schools. McCormick is practicing law in Berkeley, and for a short stay at Coronado, where he will make his headquarters in northern city, where they will reside, after October 1.

FIIGHTING IN HAYTI.
Troops of Provisional Government Win a Victory Over the Firmistins and Recapture Village of Limbe.

BY THE NEW ASSOCIATED PRESS.—P. M. CAFE HAYTIEN, Aug. 26.—(By West Indian Cable.) The village of Limbe, eighty-two miles north of Port au Prince, has been attacked and recaptured by the troops of the provisional government. Limbe was in the possession of Firmistins soldiers from the Artibonite district. The fighting was severe and lasted from midnight last night to midday today. Many men on both sides were killed. The town was destroyed by fire.

The defenders of Limbe were reinforced by marines landed from the transport Crete-a-Pierrot, which is the Firmistins service. Gen. Norde has gone forward to take command of the troops of the provisional government. A battle also took place today at Marmelade, but details of this engagement are lacking. Cape Haytien is calm.

NOT GROUNDS FOR DIVORCE.
Gross Extravagance and Forgery Committed by Wife Held not to Constitute Cause of Action.

BY THE NEW ASSOCIATED PRESS.—M. NEW YORK, Aug. 26.—Justice Spring of the New York Supreme Court, sitting in the Appellate division, has handed down a decision in which he holds that gross extravagance and forgery committed by a wife to raise money do not in this State constitute a cause of action for a limited divorce, and he therefore refuses to reverse the action of the lower court, which dismissed the complaint in a suit brought on the grounds mentioned.

In discussing the case, Justice Spring is quoted as having said: "A husband takes a wife for better or worse, and because she does not conform her expenditures to his notions of economy, is not a ground for casting her from him."

Men Only

I advertise what I do, and I do what I advertise.

I am constantly announcing in print the fact that I treat men's diseases only, and that I am able to render better service in this branch of medicine than any other doctor anywhere. I claim to cure cases that are beyond the possibility of aid by ordinary forms of treatment, to cure every case I undertake, and to cure permanently and in less than the usual time required.

All these things I actually do, and that is why I am known as the foremost specialist treating men's diseases, and why my practice is the largest of its kind west of Chicago. You can depend absolutely upon every claim and promise I make, because my reputation is at stake and I am morally, legally and financially responsible in all my endeavors.

"Weakness"

The strongest and most robust men are often afflicted with "weakness," as those who suffer from it call it. This is true in not at all surprising when we understand the real cause of "weakness," and it is not the weakness of the muscles, and electrical stimulation not only fails to restore health and vigor, but rather worsens the condition they were supposed to cure. In practically every case of loss of vitality, a careful and scientific examination reveals a broken, swollen and chronically inflamed prostate gland, which condition is directly responsible for the disordered function. To treat by any of these methods that are commonly employed is like attempting to quench a raging fire with oil. The alkaline reaction and swelling electrical currents can but add to the inflammation in the urinary organs and thus render more marked the present symptom—the weakness. I employ local treatment exclusively, and my laboratory is equipped with the latest method of the internal state, and complete power system. These who have been miserably treated for a weakness should now understand the cause of failure and learn how to obtain relief. My own case produces complete and lasting results.

Stricture

My method of curing Stricture is new and entirely original. No cutting or stitching. The stricture is dissolved and completely removed, and all affected men are thoroughly cured.

Contracted Disorders

Various contracted diseases, such as gonorrhea, syphilis, etc., are treated by my method. The results are complete and lasting.

Varicose

I am better known, and more successful, in the treatment of varicose veins, than any other doctor in the world. My method is entirely original, and the results are complete and lasting.

Stricture

My method of curing Stricture is new and entirely original. No cutting or stitching. The stricture is dissolved and completely removed, and all affected men are thoroughly cured.

Dr. O. C. Joslen,
Cor. Third and Main Sts.

Uriciccol

Uric acid solvent for the uric acid condition

Uriciccol is recommended and guaranteed to cure rheumatism and other diseases resulting from an excess of uric acid in the system. In order to cure rheumatism, it is necessary to dissolve and eliminate the excess of uric acid in the system and this is done, rheumatism cannot be cured.

RHEUMATISM.

How Uriciccol Cures It.

Uriciccol neutralizes the uric acid condition without over stimulating the kidneys—this is the secret of its success.

It does not disturb the digestive process, it controls the action of the heart without depressing it, and without causing any exhaustion; in reducing the pain it does not cause any nausea or other disagreeable action. It does not impair the quality of the blood; in other words, it does not impair the constructive energies of the system.

It produces a mild physiological stimulation of the intestinal glands.

Uriciccol is the only cure for rheumatism that will not injure the stomach or any other part of the system.

Uriciccol is particularly useful in cases of long standing and chronic rheumatism, because the patient can take it without any injurious effects.

Uriciccol is sent to any address in the U. S., prepaid, upon receipt of \$1.00, providing your druggists cannot supply you.

The "Hellman"—Biggest Building Ever Started in Los Angeles.

THE WORLD'S HUGEST TREE. Discovered by a Local Engineer.

Greatest of All the Sequoias.

Officially Measured by John Muir, the Famous Naturalist.

What proves to be the largest tree yet found among the giant forest throng of California has recently been discovered, and was officially measured for the first time on Saturday by John Muir, the famous woodsman, discoverer and writer, who has done so much to make known the natural wonders at the Pacific Coast.

Dr. Norman D. Kelley of Fresno, who arrived at the Van Nuys in this city last night, was Mr. Muir's companion on the trip in quest of the giant tree, and brought the news here.

The tree which thus suddenly goes to the head of the list of California's "big trees," measures 107 feet in circumference, giving it a diameter of 8 feet, passing the monsters, "Gen. Grant," in the Gen. Grant National Park, and "Gen. Sherman," in the Sequoia National Park. The new discovery is a Sequoia gigantea, surpassing that which the learned say. For these untold centuries it has reared its stately form in the forest of the Sierras, and the largest of the giant trees of the world. The tree is situated in a grove of other magnificent examples of its own kind, almost unknown to fame so far. It is a finer specimen in every way, Dr. Kelley says, than the great trees which have so far carried off the honors for hugeness.

An examination of the plans prepared by Architect Alfred P. Rosenheim for the office building to be erected for Herman W. Hellman on the northeast corner of Spring and Fourth streets, in this city, shows that it will be one of the largest and most thoroughly modern structures that has yet been constructed on the Coast, and the biggest building in Los Angeles.

Three-storied steel and iron will be required for the construction of the frame work of the building above the ground level.

While it will not be so tall as the Call building in San Francisco, its finish and arrangement will be finer, and it will have certain modern features that had not been put into successful operation when that structure was designed.

The new building will be eight stories high, exclusive of basement and attic, which will practically make it a ten-story building. It will be constructed with a steel skeleton frame, and will be absolutely fireproof.

It will have a frontage on Spring street of 115 feet, and on Fourth street of 100 feet, with entrances in the center of each front.

The Spring-street entrance will be 17 feet wide, with a continuous passage-way extending eastward 160 feet without obstructions of any kind.

BRYAN A WINNER
THOUGH A LOSER.

SO SAYS NEWSPAPER MAN FROM BRYANTOWN, NEBRASKA.

Interesting Gossip About a Big Figure in American Politics Who is Now Living With His Family in a Sumptuous Home.

"Mr. Bryan firmly insists that he is out of politics for himself," said George W. Kline, a Lincoln, Neb., newspaper man, at present visiting friends in Los Angeles, when questioned about the famous Nebraskan by a Times reporter. "Just the same he is very much alive politically, and is now rolling up a comfortable bank account while throwing vitriolic editorial material at David B. Hill, Grover Cleveland and their band of Democratic 'reorganizers'."

"For Mr. Bryan is a remarkable exception to the well-known maxim that politics gnaws away at a bank account. He has been the most successful politician in the country since 1896, and he is now rolling up a comfortable bank account while throwing vitriolic editorial material at David B. Hill, Grover Cleveland and their band of Democratic 'reorganizers'."

"The commoner he started to air his unique political heresies and retort upon the men who have been the Democratic standard in 1896 and 1898. Editorials written by Mr. Bryan are models of literary excellence. On the whole, the publication makes dismal reading, but it is an enticing prospect from a business point of view."

"Mr. Bryan is popular among his townsmen. He has now forsaken city life. About four miles from Lincoln, on the forty-acre farm so vigorously assailed by the cartoonists in the last Presidential campaign, he is building a handsome residence. In the barn, completed last spring, the Bryan family are living.

He is now a great man born forty years too late. He conducts a campaign on Henry Clay methods, when politics has become more a matter of shrewd business manipulation, and unromantically plot for power. And again he has a remarkable facility for overruling business manipulation.

Mr. and Mrs. Kline are guests of H. A. Alphonso, No. 1233 West Twenty-fourth street.

POMONA.
The condition of C. E. White remains unchanged, being still critical. James Harvey came from Long Beach today.

Charles F. Loop is here from Catalina, spending a few days with H. G. Tinsley.

Mr. and Mrs. E. A. Padgham are at Long Beach for ten days, superintending improvements on their summer home there.

A. F. Rosenheim, architect, Los Angeles and St. Louis.

The Fourth-street entrance will be 21 feet in width, and will open into a hallway having the same lateral dimensions. This hallway will contain a double staircase that will extend to the second story, and a highly ornamental piece of work, constructed entirely of white Italian marble.

At the intersection of the two hallways will be located a bank of four high-speed electric elevators, designed to travel at the rate of 500 feet a minute.

The first two stories of the street front will be built of California sandstone, starting at the sidewalk with polished granite bases and terminating at the third story with an ornamental cornice.

Above this point the materials will be granite-colored, hydraulic pressed brick, with trimmings of semi-gloss terra cotta, of color to harmonize.

There will be an interior court for light and ventilation starting at the second floor line. This court will be open to the sky, and the walls will be faced with cream-colored enameled brick, with terra cotta, of the same finish, for the walls and caps of all windows. This court will be 35 feet wide and 90 feet long.

On the ground floor there will be two stores, each 60x30 feet, fronting on Spring street. That on the corner has been leased for ten years to the Security Savings Bank, the other for the same period to the Off & Vaughn Drug Company.

There will, also, be two stores fronting on Fourth street. The small one adjoining the entrance will be 32x50 feet. The larger one will adjoin a ten-foot alley and driveway on the east, which will separate it from the Van Nuys Hotel, and it will be 50x15 feet.

East of the drug store, and opening on the Spring-street corridor, will be four small stores, two of them 12x50 feet, and two 12x30 feet, which will be used for a barber shop, cigar stand, news stand and flower stand, respectively.

All floors above the first story will have forty offices, each averaging 12x20 feet, making a total of 280 offices, all of which will be practically outside rooms. Each office will be fitted with a lavatory, having hot and cold water, and with a lat and closet. On each floor there will be two large rooms, each containing twenty fire-proof vaults, and each office on that floor. This is a special feature that was recently introduced in the latest office buildings of New York and Boston.

Gas, electric lights and similar modern conveniences will, of course, be provided. The main entrance leading to the building will be on Spring street, and hallways will be finished with marble and mosaic floors and marble wainscoting and ceilings. The woodwork on the ground floor will be of rich mahogany, and on all other floors of quarter-sawn white oak. All glass used throughout the building will be polished American plate. The plumbing will be of the highest grade and all toilet rooms will be finished in white marble.

The building will cost about \$750,000, and it will require at least one year for its construction.

Work upon it will begin about the first of next January, provided the necessary shipments of steel can be secured.

Bids for furnishing this material and placing it in position will be received tomorrow, and contracts will be entered into before the close of the present week.

Mr. Rosenheim, the architect who has been selected to design and supervise the construction of this building, has heretofore confined his operations largely to St. Louis and vicinity. He has erected many of the largest and most important commercial structures in that city, in addition to numerous residences and churches. Last year he was appointed to act as consulting architect in connection with the construction of the Rosenberg library at Galveston, Tex., which is a fire-proof building costing \$500,000. Mr. Rosenheim has, also, been engaged upon important work in Boston and Washington.

Westminster. They are arranging an itinerary for a special train to carry 125 Knights Templars from Pittsburgh to the big convention at Los Angeles in September, 1904. The train is to be a model of elegance and comfort, and will comprise seven modern coaches equipped with every convenience. The route will be northern to the Pacific Coast, through Yellowstone Park, Tacoma, Portland, Seattle, San Francisco, Los Angeles, Salt Lake City, Colorado Springs, Denver and finally to St. Louis, where the party will disperse to see the wonders of the big fair as they choose. Messrs. Swartz and Gosser are completing arrangements for this trip as they go, and will leave for Salt Lake today.

The special Santa Fe train that has been running to San Diego every Sunday afternoon, leaving Los Angeles at 5:45 o'clock, and returning, leaving San Diego Sunday at 6:15 p.m., will be discontinued after September 1. The last trip will be made next Saturday and Sunday.

A. C. Hilton, traveling passenger agent of the Erie, is in Los Angeles from San Francisco.

TERMINAL OFFICIAL RESIGNS.
H. S. McKee, who for nearly ten years has been treasurer of the Terminal (Salt Lake) Railroad, has resigned his position effective September 1. Mr. McKee resigns to identify himself with the Los Angeles Trust Company, which is a fire-proof building costing \$500,000.

CLAREMONT.
COLLEGE TOWN NOTES.
CLAREMONT, Aug. 26.—Mrs. H. N. Kinney and Miss Marian Kinney entertained thirty-six young people of Claremont Monday evening in honor of Miss Hilda Humphries of Sierra Madre, a former student here. The evening was delightfully spent with games, college songs and refreshments. Prizes were won by Miss Agnes Walcott and Robert Wherry.

Dr. and Mrs. F. W. Thomas left this morning for the beaches and Catalina. Miss Bertha Eldredge is spending a few days with her classmates, Miss Adelle Coy, at Highland.

Indications point to a large increase in the number of students in Pomona College the coming year.

Among the positions in the college to be filled by new talent are director of the school of music, professor of mathematics, in the absence, for one year, of Prof. F. P. Brackett, preceptor of the young woman's department, matron and professor of philosophy. Some of these positions will be filled by men and women secured in the East by President Gates.

SIGN OF GOTHAM'S WEALTH.
NEW YORK, Aug. 26.—A comparatively statement for the fiscal year ended June 30, last, shows that the New York postoffice and its stations paid out on domestic money orders \$2,525,451, an increase of 25 per cent. over last year. The office paid to officers throughout the country during the year \$2,621,334.

UNTERRIFIED IN TURMOIL.

Democrats' Wild Time
in Convention.

"High Wire" Allender is
Denied a Seat.

His Primary Vote His Undoing.
Contest on Judgeship—
Nominations.

Jeffersonian simplicity and Babylonian disorder attended the opening of the Democratic county convention yesterday at Turner Hall on South Main street. No mood was shed and very little water was drunk.

It was a wild day in politics, compared with which the Republican convention of last week was as calm as a dead fly in a pitcher of cream. If a master hand guided the convention, it must have lost the tiler early in the day, as the craft was stranded on a bar for a time and anon dashed on the rocks of discord, and it was so far from port last night that it could not be reached even by "wireless."

Briefly stated, the events of the day were the election of a chairman by those who termed themselves the "anti-push," the unseating of F. W. "High Wire" Allender because he voted the

the call, probably five hundred were in attendance. Neuhart was placed in nomination for temporary chairman by J. Neuhart, C. F. Harris by Judge Adams of Pasadena, and Milton K. Young by Tom R. Thornton. Harris received strong support from some of the county precincts, which voted first, but his lead soon was overcome by Young's supporters in the city, and the Pasadena man withdrew in favor of Young before the balloting had been completed. Young then was chosen by acclamation and was escorted to the chair by George S. Patton, C. F. Harris and Joe Simmons.

Temporary secretaries were elected as follows: W. W. Stephens, J. W.

upon be debarred from a seat in the convention.

This was a short circuit for Allender and his friends, and it was some time before they could get their line repaired out to remedy the damage. Then they howled.

"Why should he be singled out?" they queried. "Why is it that over one hundred Democrats in one precinct can vote the Republican ticket without a protest from this convention further than to put the 'blot' on Allender because he was caught with the code on him?"

The situation was tense, to say the least. There were many who thought Allender was the victim of discrimination, and they wanted him to retain his seat along with some other black sheep.

Allender remained in his seat for a brief period, his face blanched and his eyes flashing defiance.

Then he got the floor, and, striding to the platform, he looked savagely at his hearers and said:

"Mr. Chairman and Fellow-Democrats: It has been said that all human action has within itself its own rectification. In this very hall, even

George S. Patton explained that it was a misconception on Allender's part if he thought he was in the hands of personal or political enemies.

"The action of the Credentials Committee was unanimous," said Patton, "with the exception of Mr. Allender, who was a member of the committee. We had no desire to question the gentleman's democracy, but I do question his judgment. He was guilty of a gross indiscretion when he wrote his name down on the precinct register as a Republican. We are entering on a new political period under the new primary law. If Mr. Allender could vote the Republican ticket without protest, why cannot Republicans invade our primaries under similar circumstances? This is a simple matter of precedent. It is most unfortunate, but it is the one thing to do. Interests of party integrity and party discipline demand that the report be adopted as read."

Fuller attempts on the part of Allender's friends to save him from disgrace were followed by the adoption of the report with an overwhelming chorus of "ayes," and the incident was closed.

WILL NAME FOUR JUDGES. Another lively fight was precipitated by the reading of the report of the Committee on Organization and Order of Business, by its chairman, Tom C. Thornton.

With a few exceptions the report was acceptable as submitted, the order of nominations being in accordance with the County Government Act. A change was made in the recommendation as to the selection of the County Central Committee. Instead of being appointed by the chairman, as has been the practice, the members of the committee will be elected from each precinct, and the chairman will have the appointment of the secretary.

Serious opposition developed on the question of the Superior Court judges.

Dr. Albert W. Moore, Robert G. Loucks, George W. Retzer, Will L. Peltzer was added to the staff later in the day.

On motion of William Mead, the chairman was instructed to appoint the regular committee, and an attempt was made to adjourn for the noon recess. Commotion ensued, some of the delegates insisting that the committee be appointed at once, and temporary adjournment was taken while this duty was performed.

After this was done, however, Frank Reese moved that, if it were shown positively that any delegate had voted the Republican ticket, at the pri-

maries he should be barred from the convention. This motion was adopted by a large majority and delegates turned from one to another with questioning glances that seemed to be charged with crimination and recrimination. No one knew just how far-reaching this action might be, and there was much uneasiness.

Just before adjournment for lunch, the following committees were named by the chair:

Credentials: George S. Patton, chairman; Anthony Schwam, Frank Hanlon, E. L. Crandall, E. L. Hutchison, John Satterwhite, John H. Cummings, John H. Bissell, Cateley Thon, F. M. Salter, A. N. Norton, Calvert Wilson, Telfair Creighton, W. A. Guines, F. W. Allender.

Platform and Resolutions: A. M. Stephens, chairman; C. F. McNutt, Joe Mansfield, Rank Harris, A. M. Harris, Joe Simmons, C. F. Harris, E. F. Parish, W. T. Craig, E. F. Wehrle, Z. W. Craig, Emmett Wilson, Nick Quirello, R. A. Evans, E. E. Randolph.

Organization and Order of Business: Thomas Thornton, chairman; Tom L. Neal, J. R. Millard, William Mead, R. E. Adams, E. L. Stephens, W. B. Clair, Creighton, John T. Gaffey, J. C. Lee, W. H. Poston, Carl Alex Johnson, A. L. Apple, E. L. Dehaven, Calvert Wilson, Douglas Burnett.

AFTERNOON SESSION. "HIGH WIRE" ALLENDER FIRED. At 3:00 o'clock p.m., a semicircle of order was secured by the chair, and the afternoon session began with the reading of the report of the Credentials Committee by its chairman, George S. Patton.

Recommendations were made that no proxies be recognized, and that the majority of each delegation cast the vote of the absentees of their respective precincts, and that outside of the cities of Los Angeles and Pasadena when no precinct had elected delegates to the convention, or when, having been elected, such delegates are absent, the Assembly district in which such precinct is located may decide how the vote of such precinct shall be cast.

"HIGH WIRE" UNSTRUNG. Then came the sensational part of the report, in which F. W. Allender, a delegate and a member of the Credentials Committee, was shown of his evanescent glory.

"It appearing to your committee by affidavit," read Chairman Patton, "that F. W. Allender had voted at the Republican primaries, and Mr. Allender being present and admitting the facts, your committee recommends that said F. W. Allender be not entitled to a seat in the convention, and it being publicly stated that other Democrats have been guilty of the same offense, we hereby recommend that whenever the fact may be made to appear such Democrats shall there-

upon be debarred from a seat in the convention."

And he marched to his seat, took his hat and left the floor, even before the final stamp of disapproval had been placed on him.

R. J. Adcock attempted to move an amendment that would retain Allender in the convention, but A. P. Thompson of Precinct 228 rose to a point of order, calling attention to the fact that the convention had adopted a rule barring delegates who had voted the Republican ticket, and saying that Allender had gloied in his action. The chairman ruled with Thompson, and

most humbly to your judgment and your will."

And he marched to his seat, took his hat and left the floor, even before the final stamp of disapproval had been placed on him.

Organization and Order of Business: Thomas Thornton, chairman; Tom L. Neal, J. R. Millard, William Mead, R. E. Adams, E. L. Stephens, W. B. Clair, Creighton, John T. Gaffey, J. C. Lee, W. H. Poston, Carl Alex Johnson, A. L. Apple, E. L. Dehaven, Calvert Wilson, Douglas Burnett.

AFTERNOON SESSION. "HIGH WIRE" ALLENDER FIRED. At 3:00 o'clock p.m., a semicircle of order was secured by the chair, and the afternoon session began with the reading of the report of the Credentials Committee by its chairman, George S. Patton.

Recommendations were made that no proxies be recognized, and that the majority of each delegation cast the vote of the absentees of their respective precincts, and that outside of the cities of Los Angeles and Pasadena when no precinct had elected delegates to the convention, or when, having been elected, such delegates are absent, the Assembly district in which such precinct is located may decide how the vote of such precinct shall be cast.

"HIGH WIRE" UNSTRUNG. Then came the sensational part of the report, in which F. W. Allender, a delegate and a member of the Credentials Committee, was shown of his evanescent glory.

"It appearing to your committee by affidavit," read Chairman Patton, "that F. W. Allender had voted at the Republican primaries, and Mr. Allender being present and admitting the facts, your committee recommends that said F. W. Allender be not entitled to a seat in the convention, and it being publicly stated that other Democrats have been guilty of the same offense, we hereby recommend that whenever the fact may be made to appear such Democrats shall there-

upon be debarred from a seat in the convention."

And he marched to his seat, took his hat and left the floor, even before the final stamp of disapproval had been placed on him.

R. J. Adcock attempted to move an amendment that would retain Allender in the convention, but A. P. Thompson of Precinct 228 rose to a point of order, calling attention to the fact that the convention had adopted a rule barring delegates who had voted the Republican ticket, and saying that Allender had gloied in his action. The chairman ruled with Thompson, and

most humbly to your judgment and your will."

And he marched to his seat, took his hat and left the floor, even before the final stamp of disapproval had been placed on him.

The chairman ruled with Thompson, and

JOHN W. WEAVER, HOOVER'S ABOUT AS GUARDIAN ANGEL

Fullerton, Dr. Albert W. Moore, Robert G. Loucks, George W. Retzer, Will L. Peltzer was added to the staff later in the day.

On motion of William Mead, the chairman was instructed to appoint the regular committee, and an attempt was made to adjourn for the noon recess. Commotion ensued, some of the delegates insisting that the committee be appointed at once, and temporary adjournment was taken while this duty was performed.

After this was done, however, Frank Reese moved that, if it were shown positively that any delegate had voted the Republican ticket, at the pri-

maries he should be barred from the convention. This motion was adopted by a large majority and delegates turned from one to another with questioning glances that seemed to be charged with crimination and recrimination. No one knew just how far-reaching this action might be, and there was much uneasiness.

Just before adjournment for lunch, the following committees were named by the chair:

Credentials: George S. Patton, chairman; Anthony Schwam, Frank Hanlon, E. L. Crandall, E. L. Hutchison, John Satterwhite, John H. Cummings, John H. Bissell, Cateley Thon, F. M. Salter, A. N. Norton, Calvert Wilson, Telfair Creighton, W. A. Guines, F. W. Allender.

Platform and Resolutions: A. M. Stephens, chairman; C. F. McNutt, Joe Mansfield, Rank Harris, A. M. Harris, Joe Simmons, C. F. Harris, E. F. Parish, W. T. Craig, E. F. Wehrle, Z. W. Craig, Emmett Wilson, Nick Quirello, R. A. Evans, E. E. Randolph.

Organization and Order of Business: Thomas Thornton, chairman; Tom L. Neal, J. R. Millard, William Mead, R. E. Adams, E. L. Stephens, W. B. Clair, Creighton, John T. Gaffey, J. C. Lee, W. H. Poston, Carl Alex Johnson, A. L. Apple, E. L. Dehaven, Calvert Wilson, Douglas Burnett.

TIRE CITY. Hugest tire in the world discovered by Los Angeles engineers...Carpenters losing their jobs through new waiting desk...Plains Indians feeling bad about war...The biggest on the Coast...Three new carrier carriers...Cleveland young man arrested here for embezzlement...Nebraska man talks about Bryan...High school All-American from Ohio at Democratic Convention...Le Compte Davis nominated to run against "Corney" Henderson...Wild day at Democratic party Convention...Prohibition Congressmen...New York City for elections...Polygot battery case...Salt Lake Road striding for Riverside...Harrier Review Commission criticized slow progress...Mayor Snyder surprised...Police officers...City planning issuing gun permits...Joseph Volle goes to San Quentin for two years.

FOREIGN. Anarchists arrested in Italy, accused of plot against King. Little in Hayti....Gunboats bombard

Miles to see things more charitably was made by several of his friends in the Senate, who have stood by him for many years, and people close to Gen. Miles say today they believe the Government has brought to see that he has been burning himself more than anybody else by quarrelling.

Altogether, there is a decidedly optimistic feeling concerning the future relations between the White House and Gen. Miles. His departure from Washington, September 15, will present him taking part in the Great Army camp in Washington in October. Gen. Miles had intended to take an important part in that celebration. His relations with the military establishment during his absence from Washington will be of great importance, for there are those who have expected, since his return from the field operations in Porto Rico in 1898.

All orders to the army will continue to emanate from the Adjutant-General's office, signing the orders of the Commander-in-Chief. The Adjutant-General's office will continue to be the formal line "by which command" of the Adjutant-General, "Lieutenant-Gen. Mills," which has been made with a rubber stamp every weekday for the last four years, no matter in what part of the country Gen. Mills happened to be at the time. Beyond the Adjutant-General's office, the orders will go back again, the Lieutenant-General commanding may exercise exactly the same authority as when he went to Europe to observe the Greco-Turkish War, a tour that carried him to the women's jailhouse, to Constantinople, to the front, and back to the German maneuvers to be the recipient everywhere of marked honors due to his high rank and record.

TREASURY'S GREAT SHOWING

DEFICIT CONSIDERABLY LESS.
DIT DIRECTLY TO THE TREASURY
WASHINGTON, Aug. 14.—The
Dispatch. At the close of business
day the Treasury was \$1,321,000 ahead
for this month, and there was a deficit
since July 1 of only \$5,474,000. Consider-
ing that the war-revenue taxes have been
wiped out, Secretary Shaw consid-
ers this to be a magnificent showing.
He said that the Treasury would not
did say that it is simply able to help
out the bankers if they need money in
the West for all crop movements, and
probably Secretary Shaw will deposit
about \$1,000,000 in national banks to
supply currency needs. None of this
money will be deposited in New York
banks, but it will go into the western
banks for the sole purpose of helping
to move this year's enormous
crops.

WASHINGTON.
(Continued from first page.)
Industrial occupations, and with their characteristic energy, are initiating a new era throughout China. This activity is said to be due to several causes, the first of which is the fact that there is a high tariff imposed upon nearly every manufactured article imported into China. Another reason is that in recent years large financial interests have been acquired in the country by foreigners, and prospective profits on the products of local industries, is encouraging capital to seek investment in mills and factories.

WASHINGTON.
(Continued from first page.)
A new cotton mill, to employ 600 hands, began operations in July to make the coarsest grades of gray calico and striped drills, and a match factory, largely capitalized in the United States, will begin in November to supply three thousand gross boxes of matches a day, more than meeting the entire Chinese demand. The wood for these matches will come from the United States, and the duty of 30 per cent. for matches will be saved.
